academic testing

Average Increase

Since 2006, Pre and Post academic testing for all YIP students have had an average increase in academics; a direct contrast to the prevailing trend of declining academic skills among our young people during the summer months.

In 2022, YIP will operate five programs changing the lives of 420 'at-risk' male and female youth in Alexandria, VA, Arizona, Hawaii, and Michigan. Rebounding from over two years of impacts from COVID-19 global pandemic, we set the standard with our participants, showing impressive academic growth rates in STEM development, English, and Leadership to change the life trajectory of our Nation's next generation of leaders!
